## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of species A, C, and E claims 1-9, 11, and 13-25 in the reply filed on 7/19/06 is acknowledged. The traversal is on the ground(s) that according to the applicant more than 20 claims are generic to all disclosed species. This is not found persuasive because regardless of how many claims are generic to each species they remain distinct species.

Therefore the requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) The invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-9, 11, and 13-25 are rejected under 35 U.S.C. 102(a) as being anticipated by WIPO publication WO 02/05729 A2 Yodfat.

Yodfat discloses the same invention comprising a diverting filter for implantation in the bifurcation of the human common carotid artery with the external carotid artery and the internal carotid artery comprising a tubular body made from 40-160 braided filaments having a diameter ranging from 10-50 um, a braid angle of 80-100 degrees (page 26 lines 3-4), an average porosity index of 75-95% (page 9 lines 12-18), middle region windows having diameters ranging between 100-500 um (page 17 lines 1-15), a

length ranging from 20-150mm (page 18 lines 1-2), having a taper moving from the proximal end to the distal ends and flared ends. Shown in figures 111b.
